Philosophy & Mission

Overview

Veritas Classical Schools offer homeschooling families a unique, integrative complement to their home study programs with an emphasis on a classical Christian model of education. Because of this integrative approach, our humanities program is taken as a unit. **We do not offer the option of choosing specific courses to take in the humanities.**

Veritas Classical Schools function in the role of tutor, assisting parents in their educational roles. Each student attends Veritas one day per week during the school year according to his age group for humanities. If a student takes math and science, those courses are offered on a separate day.

Mission Statement

Veritas Classical Schools assist homeschooling parents by partnering with them to communicate the truth, train the mind and cultivate the heart in a Christ-honoring atmosphere.

Classical Christian Approach

It is not uncommon for homeschooling families to feel the need for assistance in the *planning* and structuring of curricula, in providing *motivation* for their students, in the *teaching* of various special subjects, and in objectively *evaluating* their students' work. Homeschooled students also often lack peer interaction in an academic atmosphere where challenging discussion, debate and idea-analysis are encouraged.

Veritas Classical Schools have been established to provide homeschooled students with:

- * **integrated core curriculum** in history, literature, composition, grammar, critical thinking, and vocabulary/language
- * **regular assignments** to outline the student's weekly work at home
- * **accountability** for completed assignments
- * **opportunities** to participate in advanced placement and honors courses
- * **enrichment activities** not frequently included in homeschool studies
- * **evaluation** of student progress by experienced educators
- * **classroom peer interaction** in an academic environment.

The purpose of Veritas Classical Schools is to help mold students into thinkers, young men and women who do not simply “regurgitate” the information they have been fed but rather who analyze, critique, and affect the world by applying biblical wisdom to their lives, families, and communities. Veritas Schools offer homeschooling families a unique complement to their home study programs by providing weekly classroom instruction, with an emphasis on classical as well as traditional subjects taught from a distinctly Christian perspective.

It is our goal that Veritas students learn to THINK, biblically and logically, not just to blindly memorize seemingly unrelated and irrelevant facts required to do “well” on tests. Veritas students are taught to be lifelong learners who consistently evaluate and critique relevant issues and who skillfully communicate their thoughts and ideas. All students at Veritas Schools are taught factual and philosophical truth, are taught to evaluate the messages they are receiving from the world around them and are taught to defend their beliefs in a persuasive manner.

Philosophical Perspective

Veritas Classical Schools recognize that God has ordained parents as the agents responsible for the academic and spiritual nurturing of their children. At Veritas Classical Schools, we endeavor to assist parents by presenting a Christian worldview which teaches children to love God with all their hearts, minds, souls and strength. Our intent is to communicate the truth, train the mind and cultivate the heart in a Christ-honoring atmosphere.

*Study to show yourself
approved unto God.
II Timothy 2:15*

Admissions & Fees

Candidates for Enrollment

The student who will prosper in Veritas Classical Schools is one who is being reared in a family that values academic, spiritual, and moral education. He or she is from a family which understands the home to be the primary educational entity in the child's life but which also sees the value of a positive teacher/mentor and peer group interaction in a small-group setting. The student, who has a strong work ethic and has learned to appreciate the rewards of work well done, will find that while the Veritas approach may be rigorous, it is not burdensome. The family seeks an education that will prepare the child to grow in wisdom and stature and in favor with God and man.
