

Veritas Classical School Out of the Box Art Studio

programs 2018-2019

Dear Veritas Families,

Our apologies for releasing this late this year. My husband had a medical emergency so we are now getting back to “normal” thank you for your patience.

We are so excited to be doing something “Out of the Box” for Veritas classical this year. We have been creating with Veritas since OOTB opened. We have enjoyed after school classes of all sorts with so many students. After discussing with the Kinsey’s we have a new and different program we think families will love.

This year we will offer a 1.5 or 2.0 hour “workshop” style class ONCE a month for **each age group** of children. These will be held Monday-Thursday once a month.

The workshop will be designed with the age and subjects the students maybe interested in . They will STILL learn about famous artist but also enjoy seasonal based

projects. This will give the student more time to enjoy their project.

We will still make sure to offer drawing, clay, painting, mixed media, wood and all the wonderful variety of art we always have.

This will be less time consuming for parents and even better news less \$\$\$\$\$. No monthly payments, checks to mail or auto pay, . no make up days, no discounts to figure out ...they are already discounted. Just register by workshop for session one and session 2. This should enable even more families to have art in their lives. We think this will be a win win for all. Register on line under “ Veritas classical school workshops”!

How does it work? Register the same as in the past if you are interested in taking art after Veritas select the classes/ workshops and register by August the 1st. We will have these reserved for your student.

Can you register for a day or campus you do not attend?
“ yes” you can. This offers more flexibility.

We have attached the schedule based on topic(hard to nail down the exact project to May of course so you may register through January) you may register for one workshop or as many as you like but please make registration by AUGUST 1st as always.. You may register

one child or as many as you like. The workshops do have maximums so we will have to close them at their maximum please. (if the on line payment does not take your payment It maybe at the max call us to put you on waiting list) We are excited to be able to offer some projects we could never offer in a on going hour long class. We hope you will find this simple and exciting. Please feel free to call me with any questions
678-867-7713

Tapestry Location :.
